

# StoColor – interior colour shades 2022

## StoColor – interior colour shades 2022

The interior fan comprises 225 colour shades that have been selected specifically for private and public interior design.

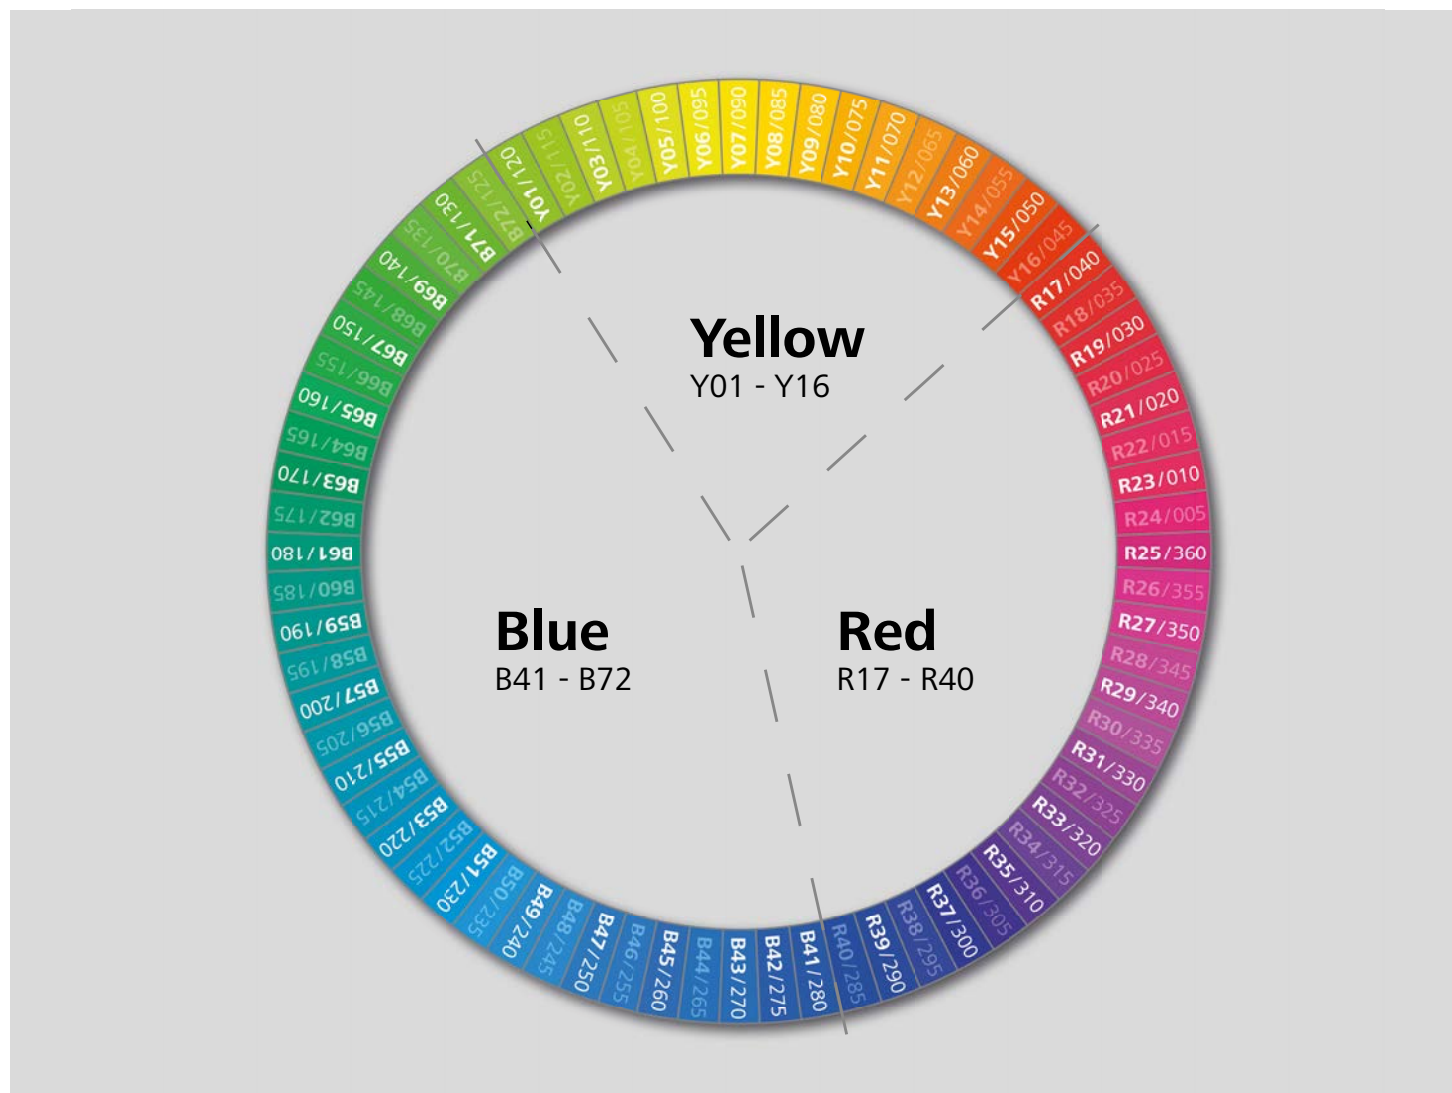

It complements the StoColor System with its 1000 colour shades which, besides the application-specific tinted versions in 72 chroma levels, also includes further shades of white and grey as well as historically significant or material-related colour shades.

The colour shades of the interior fan can also be clearly positioned in the **Neutral & Natural (N)**, **Yellow (Y)**, **Red (R)** and **Blue (B)** sections in the coordinates-based StoColor System.

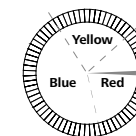

For more information and an explanation of the system, visit:

[www.sto.de/stocolorsystem](http://www.sto.de/stocolorsystem)

# StoColor – interior colour shades 2022

## Explanation of symbols

**Y01 70 40**

Colour no.

Only available in dispersion-based interior products and StoColor Dryonic® S

**57**

Light reflectance value (LRV)

**C3**

Colour class  
Definition of colour shade surcharge – see price list

Lotusan®/StoColor Lotusan  
Sto Color Silco

Colour shade is feasible.

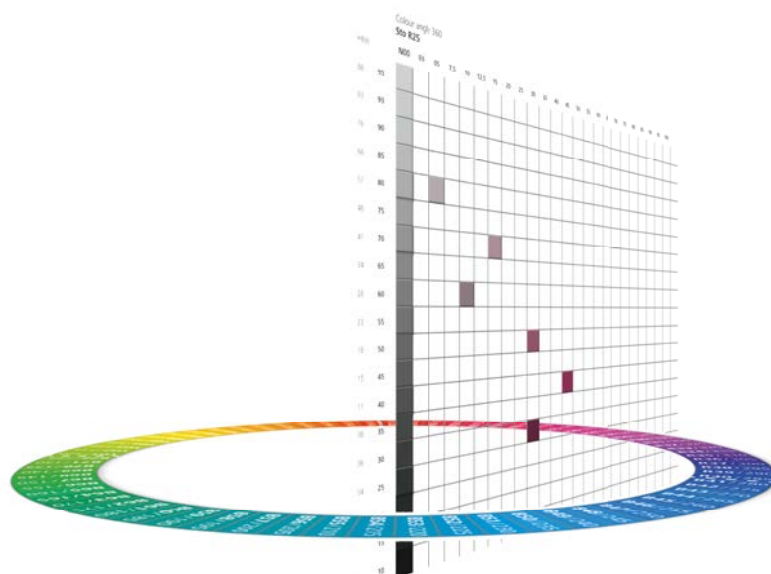

Sto silicate paints

StoLotusan K/MP } LRV not  
Sto silicate renders } below 30

Colour shade is feasible.

**Xb25/Xb30**

Represents products tinted in X-black Technology with a TSR (Total Solar Reflectance) value of more than 25 or 30.

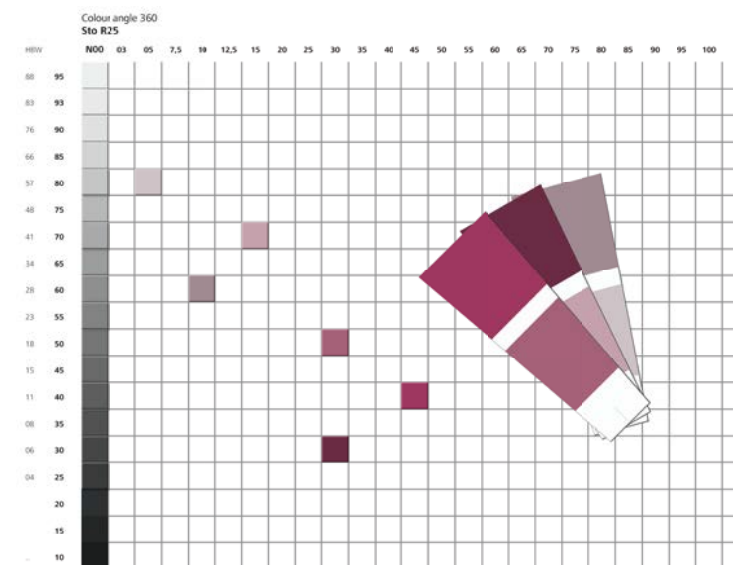

In 40 colour ranges, the 1000 colours of the StoColor System are completed with additional colour shades for interior design.

## Coding of individual colour shades

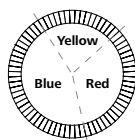

### Example: Y01 70 40

Y01 = position in colour wheel  
70 = brightness according to CIELAB  
40 = chroma according to CIELAB-HLC

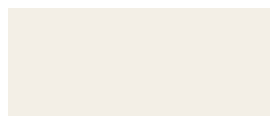

## Please note

For technical reasons (monitor model, monitor settings etc.), the colour shades shown may differ slightly from the original versions. Colour shades may also vary slightly from the original versions due to the nature of the material and limitations of the printing process, where applicable. When re-ordering the same colour shade, please always state the order number of the last order. Please note that variations in the type and texture of the substrate, and the texture of the individual coatings, may cause variations in the colour shade and that colours may change over time. No claims regarding colour shade variations as a result of the above causes will be accepted. The application instructions/Technical Data Sheets must be observed and can be requested from Sto national subsidiaries.
